Excellence in Customer Experience

We are recognised as a **reliable, innovative, and expert** provider of **future-safe** solutions.

"Iskratel brings tremendous experience, and they complement our existing technology partners perfectly with their ability to deliver a high-quality, reliable and tailored solution for Zzoomm at scale. We look forward to developing our partnership with Iskratel and delivering a superior customer experience and serving many more happy customers."*

Rich Shaw, Engineering Director at **Zzoomm**

"Iskratel's work exceeded our expectations and just one month after installing the new equipment we are already providing new services to our customers."*

Xavier Hermesse, CEO at **Zeop** (2019)

"Iskratel exhibited a high level of professionalism and competency in meeting the objectives. We found Iskratel's equipment of high quality and reliable in operation. Throughout our long-lasting partnership, Iskratel demonstrated high quality support in both warranty and post-warranty periods. T-2 qualifies Iskratel as a reliable supplier and partner."*

Miroslav Štravs, CTO at **T-2**

"Together with Kontron and Infor LN Automotive suite, Rimac achieved faster time to market, and improved operations and cost control throughout the value chain. This is important for the high-performance electric vehicles, but also to respond to tier-n requirements from various large global OEM business partners."*

Viktor Radošević, IT Product Manager at **Rimac Technology**

"IT network must be secure, robust, and reliable, which is of great importance for our compliance. Kontron is a strategic partner that follows the requirements of the industry, is aware of global trends, and proposes solutions that ensure an increase in the level of security and reliability of the network."*

Franc Škaler, Head of Business Informatics at **Krško Nuclear Power Plant**

"It is extremely important that the technology we choose enables us to be efficient and reliable, and the partner who implements it must boast professional knowledge and practical experience. With the introduction of Cisco Data Center Fabric, implemented by Kontron, we chose a technology that is ready for the future with simple expandability and a modern way of communicating devices in the data center."*

Simon Pavovec, Director of ICT Infrastructure at **Mercator**
